

SPECIFICATION

➤ **KP-600**

1. Application

One package type combination stabilizer for general and high impact PVC pipe.

2. Composition

Tri-basic-lead-sulphate, Poly-basic-lead-stearate,
Calcium-stearate, Hydro-carbon Wax Anti-oxidants,
Lubricant, etc...

3. Technical data

Term	Standard
Apperance	Bead type
Metallic Contentes (Pb%)	25 ± 0.5
Moisture Contents (%)	Max 0.5

4. Characteristics

- Non-dusting type of Pb-Ca organic complex stabilizer
- Good Weatherability
- Good Long-term Heat stability
- Good Lubricity
- Good Initial color stability

5. Packing

- 25kgs/poly-propylene coated paper bags
