

SPECIFICATION

➤ **KS-850**

1. Application

PVC film & sheet, fitting

2. Composition

Tri-basic-lead-sulphate, Poly-basic-lead-stearate, Calcium-stearate, Barium-stearate, Hydro-carbon Wax, Processing Aids, Lubricant, etc...

3. Technical data

Term	Standard
Apperance	Bead type
Metallic Contentes (Pb%)	41 ± 1.2
Moisture Contentes (%)	Less than 1
Specific Gravity (g/cc)	0.6 ± 0.1
Particle Size	10 Mesh 99%

4. Characteristics

- Excellent heat stability and activity
- Producing good brilliance skin product
- Good compatibility with fitting and extrusion
- Improved inner impact strength

5. Packing

- 25kgs/poly-propylene coated paper bags
- 500kgs/poly-propylene bulk bags
